Webcam

Broadcasting Webcam Images

A webcam allows you and your friends to share live images while you are online. In addition to text and voice messaging, you can broadcast live video of anything you want.

Problems With Your Webcam?

Visit the Yahoo! Help Center for more information on setting up your webcam.

1. View My Webcam. Click your friend's status message when it reads "View My Webcam", and you will see what they are broadcasting. You do not need a webcam of your own to view someone else's webcam.

2. Super Webcam. If you have broadband internet access, Yahoo! Messenger allows you to send and receive high-quality webcam images. If you see the **Super** button after starting a webcam session, click it for an enhanced video experience.

Don't have a webcam?
